

Advance Pesticide Application Notification Request

(Complete and return form to school by September 6, 2017)

August 2017

Dear Principal,

I am the parent (or guardian) of _____ (name(s) of student(s), who will be attending Bishop Dunn Memorial School this year in the _____ grade(s). It is my understanding that state law requires every school to maintain a list of parents who wish to receive advance notice of pesticide applications at the school their child attends. Each time any pesticides are scheduled to be applied at the school, parents on the list must be provided with a written notice at least 48 hours in advance, specifying the specific date and location of the application, the name and EPA registration number of the product being applied, the name and number of a person at the school who can be contacted to discuss the precautions being taken to protect children from exposure, and telephone numbers of information services that can provide specific information about the pesticide being applied.

Please consider this my formal request to be placed on the list to receive those notices and information. If the notices are mailed, please mail them to me at the following address:

I can be reached by telephone at the following numbers:

Dear Parents/Guardians,

Although we may not realize it, asbestos is a common material in almost every building in our society, especially those constructed before the 1980s. It is a fireproofing material/ it is found in floor tiles; it is used as an acoustical material to deaden sound. Under certain conditions, however, when it is damaged, asbestos can prove to be a concern.

A number of years ago, because of this concern, the Federal government asked every school in the country to conduct an inspection for all asbestos-containing materials. The inspection of our school revealed asbestos-containing materials, located mainly in our boiler room area. As the Environmental Protection Agency states:

"It is important to note that not all friable asbestos-containing material needs to be removed from schools. Once such material has been identified, a program can be implemented to insure that the material is maintained in good condition and that appropriate precautions are followed when the material is disturbed for any reason.

Furthermore, in any student access area when friable asbestos has been detected, environmental engineers have been retained to do inspection and evaluation work in order to advise what, if any, steps are required to insure the ongoing welfare of students and staff and to assure that no student or staff member will be exposed to unsafe levels of friable asbestos."

The New York Archdiocese has spent tens of millions of dollars in the abatement of asbestos since 1983 (long before the current regulations), and will continue with its commitment to provide a safe environment for all students and employees.

In compliance with the Archdiocese of New York, the inspection of our building has taken place regularly since 1983. Upon the most recent inspection, everything was found to be fine and safe in our school. However, it was recommended that we take care of asbestos abatement in the basement of the school. This will be taken care of when the school is vacant of children and staff after Summer FUNdamentals and before the school year begins.

Sincerely,

Bishop Dunn Administration

Where Excellence Begins...

August 2017

Dear BDMS students and families,

All students in middle school are required to sign this form in order to participate in the art program. Certain projects required the use of sharp "art tools" such as: wire, metal tooling/foil, x-acto knives, carving/clay tools, sewing needles, pliers, hammers and wire cutters.

Students will be instructed as to the proper use and handling of each art tool prior to the specific project involved. Each student will be responsible for properly handling each tool. If the student is found to be negligent with the tool in any manner, the student will be removed from the art program until a meeting can be arranged with the parent/guardian to discuss the situation.

Thank you for your cooperation in this matter.

Sincerely,

Donna DelConte
Art Instructor
